In accordance with the Australian Federal Police Act 1979, the AFP provides community policing services to the Australian Capital Territory (ACT). ACT Policing is the community policing arm of the AFP and under the auspices of a Policing Arrangement between the Commonwealth and ACT Governments, we are responsible for providing quality and effective policing services to the people of the ACT.

Our mission is to keep the peace and preserve public safety within the ACT. We strive to deliver a sustainable, professional, innovative, flexible and effective policing response to the increasingly complex borderless criminal environment.

We are committed to preventing and reducing crime, and improving public safety through continued collaboration with the government, the community and partner agencies. We aim to have the right capabilities, in the right place, at the right time through continued collaboration with the government, the community and partner agencies.

Chief Police Officer’s message

Working in partnership with the community to create a safer and more secure Australian Capital Territory

Chief Police Officer for the ACT

### ACT Policing Business Plan

Our Special Areas of Focus

- The ACT Government expects ACT Policing will focus its activities on the following key strategic priorities during financial year 2017-18:
  - Strengthening ACT’s response to domestic and family violence in appropriate and culturally sensitive ways; and supporting the efforts of the Coordinator-General for Family Safety.
  - Working proactively and innovatively with Government to reduce and prevent alcohol-fuelled violence including enforcing liquor laws, maintaining a presence in night entertainment precincts and responding to alcohol related violent incidents.
  - Continuing the commitment to early intervention and diversion strategies including restorative justice with a focus on vulnerable groups in particular young people and Aboriginal and Torres Strait Islander peoples.
  - Improving road safety through particular emphasis on vulnerable road users and combating anti-social and dangerous behaviours including speeding, driving while impaired or distracted.
  - Continue to focus on preventing, disrupting and responding to the evolving threat of violent extremism and terrorism with a particular focus on crowded places.

---

### PARTNER ENGAGEMENT

**Outcomes:**
- Increase support for early intervention and diversion
- Collaborate with partner agencies and community groups to support community events
- Enhance and strengthen resilience of communities
- Work with community and partners to reduce tolerance for crime
- Support community derived safety and security initiatives

**Strategy:**
